

The top view shows a circular part with a central hole. It features concentric circles representing the outer and inner diameters, and a crosshair indicating the center. The outer edge has a decorative or textured pattern.

A line drawing of a long, thin, cylindrical object, possibly a telescope or a long tube, oriented diagonally from the bottom-left to the top-right. The object has a textured, ribbed end on the right side. The drawing is simple, using black outlines on a white background.

Broaching of the splines does not have to end as per this drawing, noted on your images you have alternative broaching groove lengths, which assumed is to reduced chances of sheering.
